

RAAFIU ASHIQUZZAMAN MAHMOOD

Electrical and Electronic Engineer

I am passionate about electronic projects, circuit design, and simulations, and I also enjoy coding in Python. Skilled in problem-solving, with hands-on experience participating in project showcasing competitions at international, national, and university levels.

EDUCATION

Independent University, Bangladesh
Masters of Science (MSc)
Electrical and Electronic Engineering
Autumn 2025 - Present |Thesis Ongoing
CGPA - 3.60
Bachelor of Science (BSc)
Electrical and Electronic Engineering
Autumn 2020 - Autumn 2024
CGPA - 3.00

St. Peter's School of London
Pearson Edexcel IAL(2020)
Pearson Edexcel IGCSE(2018)

SKILLS

Technical Skills

- PCB Designing and Soldering
- Python
- MATLAB and Simulink
- AutoCAD
- Embedded C, Mircopython
- Raspberry Pi and RaspbianOS
- Arduino and ESP32
- Fusion360
- KiCad
- Proteus
- Psim, Multisim, Pspice and Qspice
- Cadence and Chisel
- Machine Learning, Image and Video Processing (TensorFlow, SKlearn, OpenCV)
- Homer Pro
- Ansys Maxwell
- Microsoft Office and Google Docs
- Canva
- Open Source Intelligence (OSINT)

Soft Skills

- Public Speaking and Communication
- Critical Thinking
- Teamwork and Adaptivity
- Work Under Pressure

EXTRACURRICULAR ACTIVITIES

IEEE IUB ROBOTICS & AUTOMATION SOCIETY (RAS)

- VICE CHAIR (2024)
- TREASURER (2023)

WORK EXPERIENCE

STARTUP BANGLADESH LIMITED — INTERN, ECOSYSTEM DEVELOPMENT (NOVEMBER 2024 – APRIL 2025)

- Assisted in designing and deploying an internal RAG system using Python, APIs, and LLMs to improve data management.
- Conducted OSINT research, data sourcing, and prompt engineering to enrich ecosystem databases. Drafted documentation and managed communications to ensure smooth program execution.
- Supported startup screening for a national ICT project competition, Youth startup Summit (YSS)
- Contributed to organizing Bangladesh Startup Connect 2025 with cross-team coordination

VERSATILE — MOCK INVIGILATOR (JANUARY 2024 – APRIL 2025)

- Supervised exams to ensure order and prevent misconduct.

PUBLICATION & FINAL YEAR DESIGN PROJECT

Raafiu Ashiquzzaman Mahmood, Taremun Arefin, Md Roman Khan, Salma Islam Mim & Dr. Shahriar Khan, "Implementation of an Inexpensive IOT-Based Distribution Line Fault Detection Using Raspberry Pi," International IOT, Electronics and Mechatronics Conference 2025 - Cognitive Systems, 2025.
DOI: 10.1007/978-981-95-0429-9

PROJECTS

- RIFD Based Sanitary Napkin Vending Machine using IOT.
- Solar Powered Automatic Water Pump System using LM741 OP AMP
- 12V DC Instant Power Supply (IPS)
- Arduino Based Oscilloscope
- Arduino based Line Following Robot
- Arduino based Remote Control Car using Bluetooth Module
- IIR Filter Design ECG Signal Filtering using MATLAB
- Solar EV Charging Stations Through Vehicle-to-Grid Integration using MATLAB

COMPETITION PARTICIPATION

- GLOBAL CHALLENGE LAB 2023 TO TACKLE UN SDG7
- MINDSPARK 2023 PROJECT SHOWCASING 2023
- TECHFEST SUMMER 2023 EEE PROJECT SHOWCASING
- INTRA IUB VLSI COMMPETITION SPRING 2024
- IUB EEE INNOVATION FEST 2024 INNOVATIVE PROJECT SHOWCASING

AWARDS

- IUB EEE INNOVATION FEST 2024 INNOVATIVE IDEA PITCHING AND PROJECT SHOWCASING **(1ST RUNNER UP)**
- TECHFEST SUMMER 2023 MIRCOPROCESSOR PROJECT SHOWCASING **(1ST RUNNER UP)**
- TECHFEST SUMMER 2023 EEE PROJECT SHOWCASING **(2ND RUNNER UP)**

TECHNICAL CERTIFICATES

- CISCO PYTHON ESSENTIALS 1 AND INTRODUCTION TO DATA SCIENCE
- FREE TENSORFLOW KERAS BOOTCAMP
